

The Dragonfly Energy Battery Line

100 Amp Hours of LiFePO₄, Deep Cycle efficiency and performance.

DETAILS

- 100 Amp Hour, 12 Volt Battery
- LiFePO₄ Chemistry
- 3000 - 5000 Cycles
- Compatible with your current charger, smart charger or inverter charger
- Drop-in Replacement for Lead Acid Batteries
- 3 Year Warranty
- Designed and Assembled in Reno, Nevada, USA

SPECIFICATIONS

- 12.8V Operating Voltage
- 14.4V Charging Voltage
- Operating Temp Range -4F – 160F
- Dimensions (L x W x H)
12 ¾ x 6 7/8 x 9
- 29 lbs

BUILT IN BATTERY MANAGEMENT SYSTEM

- 100 amps continuous
- 200 amps surge for 30 seconds
- ½ second surge for larger loads
- High/Low voltage protection
- Short Circuit Protection
- High/Low temperature protection
- Automatic cell balancing

Dragonfly Energy researches, develops, and distributes the most advanced and fairly priced deep cycle lithium-ion batteries in the world. Contact us to order today!

We Make Green Go.

Whether in an RV, on a boat, or off the grid, nothing beats the performance of Dragonfly Energy's lithium ion batteries and energy storage products. We also produce our own packs, allowing us to guarantee quality in our entire product line.

BATTERIES

We have a complete line of 12 volt LiFePO₄ batteries designed for use in RV's, Boats and Off-Grid applications. We design and assemble our batteries in Reno, NV, implementing the latest technologies for pack efficiency, safety, and performance.

SERVICES

We're revolutionizing the industry through innovations in cell design, pack assembly, pack design, and pack interfaces, while developing the manufacturing methods that will make these technologies available on a wider scale.

APPLICATIONS

RV, Trailer, Marine, Off-Grid – if it ran on a traditional lead-acid battery before, it will run longer and more efficiently on our signature lithium-ion, deep cycle batteries.

We're leading the green battery charge.
Call us for partnership, wholesale, and distribution opportunities.
